FOR OUR SUPPORT

Our dedicated nationwide account team will take a unique approach to fit with you and your business. They'll cater to your every need to make sure we grow together.

BEST OPERATIONAL COOKING PRACTICE

Product must be kept frozen.

Check oil temperature: oil should be to the fill line and heated to 175°C/350°F.

Weigh out 300g of product or half fill the fryer basket. **DO NOT OVERLOAD.**

DEEP FRY from FROZEN	
3 - 3½ mins	175°C/350°F

Shake basket gently half way through cooking to break up any clusters.

After frying, shake the basket to remove any excess oil.

SERVE PROMPTLY: product can be held under heated lights for up to 10 minutes.

- The temperature of the oil should not drop more than 15-20 degrees during cooking
- **ALWAYS** cook from frozen
