

PRODUCT GUIDE

Welcome to A to Z

The fair price company that has been serving its customers for over 17 years. We have grown from a small van business into a multi-million corporate business that has over 10,000 customers, 110 employees and 25 temperature controlled delivery vehicles.

It really is a phenomenal story but what has been its secret?

The truth is there is no secret; just simple business disciplines summed up in dependability; delivered with service that is second-to-none. Many of the staff here at A to Z have been with the business for many years and they know what our customers want and have come to expect... the best service.

A superb 9000 pallet warehouse plus 4 other depots under the Imex brand; means that there is an A to Z facility close to you. Logistics has been a key platform of our success.

Another is the concept of a one stop shop offering an extensive range of products. We stock some of the best brands, sourced from suppliers who we know well.

A to Z's reputation is paramount. We constantly challenge our range so that we can be sure that customers have all they require in their own businesses from one supplier. The clue is in our name; A to Z of products, it needs to be.

A to Z has a diverse customer base, from the small owner managed cafe, restaurant or shop to large corporate clients. The business is aptly named with versatility. We need to be.

As a business we are constantly challenging what we do and how we do it. We already have a reputation for reliability, versatility, honesty and consistency. What's next? We have listened to our customers; we understand the pressures on their businesses; so we adapt accordingly.

Why are we green? Or at least greener...

Because it pays to be greener!

In our industry our Carbon Footprint can be relatively large:

- We need fuel for our delivery vehicles and heating.
- We need electricity to run our freezers, chillers and charge our fork lifts.
- We produce waste packaging and oil.

Firstly we needed to establish our environmental issues:

- Waste management
- Use of natural resources
- Sustainable energy policy.

Secondly to become **greener** and save on both CO2 and costs we put a number of policies into place:

- Monitoring vehicle fuel usage
- Fuel efficiency through driver training
- Recycling cardboard and polythene wrapping
- Recycling oil and tyres
- Running vehicle refrigeration by electricity rather than diesel (a cleaner option)
- Installing Solar Panels to reduce energy
- LED Lighting to reduce energy.

We have made a substantial investment to achieve all of the above which in turn has resulted in a significant reduction in our Carbon Footprint. We believe all this is possible not just because there is legislation, not just good management but a desire and ambition from A to Z to establish a benchmark in the industry we are in.

By introducing these policies, and our continual commitment to become **greener** every year, we have achieved an ISO in Environmental Management and were awarded the 2014 Green Wholesaler of the Year Award.

Beef Burgers & Buns

Fairway 98% Beef Restaurant Burger

Made from Irish, grass fed beef, the Burger has a meaty texture and an irregular shape giving it a “homemade” look. Compliment this with our Gourmet Bun and Fairway Chips for the perfect match. Also available is our 4oz and 6oz Beef Burgers Cook from frozen. Suitable for cooking on a chargrill griddle or grill.

Compliment it with our Fairway 5 inch floured bap, Classics by Fairway Gourmet Bread Bun or our Vive Le Pain 4" and 5" Brioche Roll. Add Fairway chips for a traditional ‘burger in a bun’ meal!

AMC000 A1 Quality Back Bacon Packet A1 Bacon 2.27kg Box Bag Frozen Z

We select our cured pork loin cuts very carefully, and tend towards a thicker, more traditional slice. We make sure you get a natural product without excessive water that performs and "eats" consistently well. It's the same product whether you go for smoked or unsmoked.

McCain is rooted in farming and McCain Produce was founded in 1914. In 1956, the frozen chip business was created when the two youngest McCain brothers, Harrison and Wallace, saw the opportunity for growth by meeting the customer need for top quality chips in a convenient, time saving and affordable format. British business began in 1965 with Charles McCarthy selling frozen chips to caterers, door-to-door.

From our earliest origins we have been involved with farming and we work hand in hand with British potato farmers to guarantee the quality and quantity we need. No other foodservice potato supplier has a potato seed business, supplying all of our contracted growers, and ensuring our supply of the very best produce for years to come. We work with over three hundred selected British Farmers who are registered under the Assured Produce scheme, assuring the safety and integrity of our British potatoes. This is why many of our products also display the Red Tractor logo. McCain is the biggest single customer for British potatoes, wherever possible we use the crop farmed locally to our factory so we can reduce our food miles.

Our approach is all about producing good, convenient, enjoyable food, using the best natural ingredients, wherever possible. Potato is a good, down-to-earth nutritious food with an important role to play in a balanced diet. It is an important carbohydrate and a valuable source of dietary fibre and vitamin C. All our potato products are prepared in sunflower oil, reducing saturated fat by 75% and eliminating hydrogenated fats. Our aim is to enable caterers to continue to meet their operational and customer needs while responding positively to consumer trends.

Our customers are at the heart of what we do and we take pride in the work we put into understanding our marketplace. Through continual research, concept testing and discussions with caterers, customers, publicans, schools, business owners and consumers, we are able to lead trends and to develop solutions for every sector.

PESTOS & BOUILLONS

With its rustic, sweet yet peppery taste, pesto sauce brings a delightful Mediterranean flavour to any pasta dish. More than just a pasta sauce, pesto can also be used to enhance vegetables, potatoes or beans. In addition to the popular green basil variety that originates from Genova, pesto can also be enjoyed with a vibrant, sun-dried tomato base.

The UK Consumers' No.1 Gravy Brand*

For a great traditional beef roast, there are a number of cuts you can use. The best cuts are usually rib or sirloin but these can be very expensive, so we've gone for a topside and the trick with this cut is to not overcook it, always allow it to rest well and carve it thinly. We've served this with Chantenay carrots, braised baby leeks and peas, roasted Maris Piper potatoes, McDougalls Yorkshire Puddings and rich Bisto Gravy.

GRAVY TIPS

Make sure you scrape all the sediment from the base of the roasting tray when making the gravy, this is where all the flavour is.

Flavour your gravy; for beef gravy try adding redcurrant jelly, red wine, onions, tomatoes or parsley.

Adding meat juices helps stop your gravy 'skinning' over in the Bain Marie and if you're not using meat juices, you can add a little vegetable oil.
