

OAT DRINK BARISTA EDITION

So you are a barista? Perfect. This carton of barista edition oat drink is based on liquid oats which means it isn't overly sweet or excessively heavy. What it is, is fully foamable putting you in total control over the density and performance of your foam so you can showcase your latte art skillz, sorry we mean skills. Anyway, give it a try and see what you think. We are here for you from now on, whenever you are ready. So you are a non-barista? Also perfect. Just heat this barista edition oat drink in a container while giving it a whirl until it foams up nicely and then pour yourself a latte without milk. And if you don't feel like a latte you will be happy to know that this product tastes just as amazing if you drink it straight or pour it on your granola or put it to work with your cooking skills. But let's keep that to us non-baristas, okay?

WHAT'S AMAZING

This is our super premium product that tastes amazing without doing a thing to it, but performs technically beautifully when foamed. Or if you are the kind of person who likes to add a splash of milk to your deep dark brew, this product can handle that as well without wimping out and separating. Any tea drinkers in the house? You probably won't want to turn your tea into a foam party but don't want any separation either. You are good from now on. The secret to this product? It's rich in unsaturated fat and if you want to know what that means read the * below.

WHAT MIGHT BE LESS AMAZING

In order to make this product perform to the professional expectations of baristas, we have used an acidity regulator. But one thing you can be sure of is that there is nothing in this product that isn't absolutely necessary or absolutely approved for consumption. Everything is plant-based and sustainable.

* Oat Drink Barista Edition is rich in unsaturated fat. Replacing saturated fats with unsaturated fats in your daily diet contributes to maintaining a recommended cholesterol level.

INGREDIENTS

Water, oats 10%, rapeseed oil, acidity regulator (dipotassium phosphate), calcium carbonate, salt, vitamins (D2, riboflavin, B12), potassium iodide.

Where do the ingredients come from?

Nutrition information per 100 ml:

Energy 247 kJ/59 kcal

Fat 3.0 g

of which saturated 0.3 g

Carbohydrates 6.6 g

of which sugars 4.0 g*

Fibre 0.8 g

Protein 1.0 g

Salt 0.10 g

Vitamin D 1.1 µg (22%**)

Riboflavin 0.21 mg (15%**)

Vitamin B12 0.38 µg (15%**)
